

I'm Robert Carl Busch and I am excited to be a candidate for the Poudre Canyon Fire Board. I have owned property with a small cabin here in the Poudre Canyon for 30 years. Seven years ago, I decided to make this my full-time home and built a a full house add on to the cabin.

Throughout my career, I have gained valuable experience that I believe would be an asset to the Fire Board. I worked for Bombardier Aerospace as a lab instrumentation specialist, where I calibrated and maintained critical instruments that were essential for getting aircraft FAA flight certified. Prior to that, I worked as a mechanic for Occidental Petroleum, where I maintained a wide range of fleet vehicles, gas engines, compressors, pumping units, and water pumps both centrifugal and high pressure piston. My work as a welder and machinist, as well as my journeyman electrician's license, also provide me with valuable skills that could be utilized by the Fire Board.

I am proud to have obtained my Bachelor's and Master's degrees in Industrial Arts Education with a minor in Business Economics from Fort Hays State College. This education, combined with my extensive work experience, has given me a unique perspective that I believe would be valuable on the Fire Board.

As a member of this community, I understand the importance of wildfire prevention and preparation. If elected to the Fire Board, I will use my experience and knowledge to help ensure that our community is well prepared for any potential wildfire threats. Thank you for your consideration.

Thank you

Robert Busch
